PROFILE

I see graphic design as a way to confidently express personal identity and this should not be hidden. I have used my experiences to help myself develop as a designer and will allow my development to grow and use my creativity to the very greatest of my ability.

EXPERIENCE

NHS Graphic / Web Designer (2016 - Present)

I am currently working as a Web and Graphic Designer which involves liaising and presenting logo designs, posters, leaflets, wireframes and icon designs to professionals. Closely working with NHS Trusts and CCGs keeping my work within strict guidelines. I use HTML and CSS for assisting with web development from my own designs. My graphics are used for apps which are currently used by pharmaceuticals and professionals across Hertfordshire and are beginning to be used in other continents.

DJ Promotion Design (In constant contact)

Contacting a DJ to create modern designs using photography and other digital enhancements to my artwork which was displayed in the David gentleman's gallery. Also to then again to be recently contacted for new modern logo designs and create a new business card for his own promotion.

MANO Packaging Design (Jan - May)

This unique freelance opportunity allowed me to produce logo designs and help contribute in ideas and plans in a unique product. Communicating on a weekly basis exchanging over plans and designs to help the entrepreneur.

ACCOMPLISHMENTS

Becoming a top 3 finalist for an international Design Competition

My design appearing in PrintWeek and PrintWeek India Magazine.

Designing my own website with my code (www.michaellambprojects.com)
